hereby request for issuance of Biosafety Permit for Commercial Propagation for the genetically modified (GM) plant/plant products describe below:

Designation	Regulated Article	Donor Organism	Host Organism	Vector or Vector Agent	Constituents of the Regulated Article
Common Name	Stacked Trait Product MON 89034 x NK603 and all progenies derived from crosses of the product with any conventionally-bred corn, and corn-containing registered biotech events.	MON 89034: Common soil bacterium	Corn	MON 89034 was produced by <i>Agrobacterium</i> -mediated transformation of corn with PVZMIR245.	Molecular characterization confirmed the presence of single functional copies of the cry1A.105 and cry2Ab2 expression cassettes, stably integrated at a single locus within the genome.
		NK603: Common soil bacterium	Corn	NK603 was produced using the particle acceleration transformation system with PV-ZMGT32.	Molecular characterization confirmed the presence of a single insert containing a single copy of the linear DNA of PV-ZMGT32 used for transformation; both CP4 EPSPS gene cassettes, within the single insert, are intact.

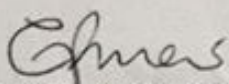

Scientific Name	<i>Zea mays</i> L.	MON 89034: Cry1A.105: <i>Bacillus thuringiensis</i> subsp. <i>Kurstaki</i> and subsp. <i>aizawai</i> Cry2Ab2: <i>Bacillus thuringiensis</i> subsp. <i>kurstaki</i> . NK603: CP4 EPSPS: <i>Agrobacterium</i> sp. strain CP4	<i>Zea mays</i> L.	-	-
Trade Name	Yieldgard VT2 Pro Corn / Roundup Ready Corn 2	-	-	-	-
Other Designations	Genuity	-	-	-	-

Identification No. of the Field Testing Application File	08-009a (Brgy. Paitan, Sta. Maria, Pangasinan); 08-009b (brgy. Sto. Domingo, Luna, Isabela); 08-009c (Brgy. Malamag West, Tumauni, Isabela); 08-009d (Brgy. San Felipe, Ilagan, Isabela); 08-009e (Brgy. Dagohoy, Poblacio, Dangcagan, Bukidnon); 08-009f (Brgy. Crossing Rubber, Tupi, South Cotabato); 08-009g (Brgy. Sagasa, Esperanza, Sultan Kudarat).
--	---

* The following supporting documents are attached:

1. Certification from the BPI 1) for new application, that the regulated article has undergone satisfactory field trial in the Philippines, 2) in cases of renewal, a certified true copy of the expired Biosafety Permit for Commercial Propagation
2. A technical dossier consisting of scientific literature, unpublished studies or data from tests performed, or such other scientific materials relied upon by the applicant to show that the release for commercial propagation of the regulated article does not pose greater risks to biodiversity, human and animal health than its conventional counterpart;
3. Copy of the proposed Public Information Sheet for Commercial Propagation (Annex "D") including information required for evaluation of environmental and health impacts;
4. Information on socio-economic, cultural and ethical considerations;
5. Field trial report;
6. Project Description as prescribed by DENR-BC;
7. Project Description as prescribed by DOH-BC;
8. Applicant's Risk Assessment Report;
9. Import Permit (when applicable); and
10. Proof of payment of fees

The undersigned certifies that based on his/her personal knowledge and/or authentic documents: (i) all the information in this application are true and correct; (ii) this application contains all information and views on which to base a decision and includes relevant data and information known to the applicant which are unfavorable to the application. The undersigned like wise warrants that the Regulated Article is to be imported solely and exclusively for commercial propagation

GABRIEL O. ROMERO, PhD.

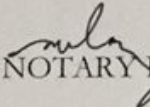

(Printed Name and Signature of Responsible Officer/Authorized Representative)
